

Rex 5.5

BIORUGGED SMARTPHONE

Product Description

Rex 5.5 is an Android rugged device equipped with a high resolution camera and a 5.5" touch screen. This terminal has been developed to register clients (KYC) in harsh environments and it shows almost indestructible ruggedness features. The Rex 5.5 supports OTG and it operates in all mobile bands from 2G to LTE.

With over 20,000 units deployed in the field, in several economic activities, the Rex 5.5 is a proven device for customer registration, delivery and retail sales. Its large capacity battery and branding possibilities make it the right choice for any company with teams out in the field.
