

Ruggbo V3

HANDHELD FINGERPRINT DATA COLLECTOR

Product Description

Ruggbo V3 is a fingerprint data collector designed for desk display and handheld due to its light weight. Its Android 4.2.2 OS together with a large memory of 8GB Rom provides good storage capacity. The fingerprint USB optical module lends the terminal a huge advantage for time attendance, telecom services and ID verification.

The Ruggbo V3 is a truly versatile device that combines its light weight with supreme communications ability and a very reliable fingerprint module. The large memory capacity turns it into the optimal solution for customer registration and time attendance.
