

Ruggbo 21 Lite

LIGHTWEIGHT BIOMETRIC HANDHELD

Ruggbo Range

Product Description

BioRugged Ruggbo 21 Lite is a new generation Android 10 (GMS) biometric enrollment and verification handheld terminal. It features a 5" Screen, LTE, 8MP Camera, 3GB/32GB Storage, quad-core Processor, a wide range of FBI / PIV / ISO / ANSI certified fingerprint reader options. With more than 120,000 units of the Ruggbo range deployed, BioRugged now sets a new standard for handheld biometric devices.

The Ruggbo 21 Lite has been designed for eKYC enrollment, voting and civil biometric verification, visitor registration, law enforcement, check point identification and banking. Depending on the use case, it may be optionally equipped with a contactless card reader (ISO14443 type A/B, ISO18092), SIM/SAM slot, and/or a smart card reader (ISO7816).

The device has a specially designed rubber cover to enhance its ruggedness for use in harsh and hostile working conditions.
